Webpack, Vite, NPM, Yarn, Git, GitHub, GitLab, Bitbucket, Docker, GitHub Actions (CI/CD), Jest, Playwright, React Testing Library, Code Splitting, Lazy Loading, Lighthouse, Web Vitals, Node.js, Express

Soft Skills & Additional

Communication, Problem-Solving, Attention to Detail, Teamwork, Adaptability, Design Tools (Figma, XD), Agile / Scrum, Management Tools (Jira, Trello, Kanban), SEO Optimization

WORK EXPERIENCE:

Frontend Team Lead

Balinex, Qom, Iran · March 2025 – Present

- Led the development and refactoring of **Balinex's trading platform**, implementing new features and collaborating with the **design and product team** to enhance user experience.
- Developed an in-house **Design System**, improving developer experience and reducing development cost across the team.
- Orchestrated the architecture, folder structure, and technology stack for Balinex within a **monorepo** using **React.js**, **Next.js**, **TypeScript**, **Jest**, **Redux**, and **WebSockets**, ensuring scalability and efficiency in development.

Senior Frontend Engineer

Balinex, Qom, Iran · January 2024 – March 2025

- Led the redesign and optimization of the user interface for **Balinex's trading platform**, resulting in a **30%** increase in user engagement.
- Collaborated with backend engineers to integrate **WebSocket** technology, resulting in a **40%** reduction in data fetching times and significantly improved overall application responsiveness.
- Enhanced the video recording functionality with real-time guidance and quality checks, ensuring clear and usable **video submissions** for identity verification.

Senior Frontend Engineer

Tafarda Studio, Tehran, Iran · May 2023 – January 2024

- Led the development of **Mdotcar**, an online tow car rescuer platform with dedicated sections for clients and expert tow services.
- Optimized the **iAuth** joint authentication system at Tafarda Studio, boosting efficiency by **20%** and reducing response time by **25%** through refactoring with **Next.js**.
- Contributed as a key developer to the implementation of the **Rsoon+ Platform**, assisting users as an investment analyst consult.

Frontend Mentor

Quera, Qom, Iran · January 2023 – May 2023

- Guided and mentored **15+ students** in web development (**HTML**, **CSS**, **JavaScript**, **React**) throughout a 6-month bootcamp.
- Managed and planned the implementation of final projects for each group, then evaluated and rated them to ensure quality and assess performance.

Frontend Developer (Freelance)

Rah Agency, Qom, Iran · March 2021 – December 2022

- Revamped the Rah Agency site, achieving a **15%** increase in page loading speed by implementing a clean, customized UI with efficient page caching.
- Implemented the **Madomotor** web application as a fully responsive site and store, resulting in a **12%** increase in online sales and boosting the Mado brand's online presence.
- Led the full development of the **Retone** web application, improving user engagement through a customized design and **GSAP** animations.

Frontend Developer

Dijlah, Qom, Iran · May 2019 – December 2021

- Redesigned and deployed a new management dashboard, reducing support and training tickets by approximately **50%**.
- Led R&D to transition from **B4A** to **React Native** for mobile applications, reducing development time by **40%** and ensuring cross-platform compatibility.
- Shipped **6+** cross-platform (Android, iOS) apps for multi-language projects with **React Native**, earning 500+ positive reviews on the **Apple Store** and **Google Play**.

Frontend Developer

Unier Agency, Mazandaran, Iran · June 2016 – February 2019

- Built the **Verna** application, an online game with **1K+** users, using **React Native** for Android and iOS.
- Contributed to **Unitour**, a virtual tour of **Mazandaran University** helping students and visitors explore the campus remotely.
